

CHEMICAL REGULATION REPORTER® INDEX-SUMMARY

— Vol. 33, Nos. 1-21, pp. 1-530
— Jan. 1 -- May 25, 2009

A

AARHUS PROTOCOL ON PERSISTENT ORGANIC POLLUTANTS

U.S. ratification, Senate measure. *See* Legislation, federal, S 519

ACCESS TO INFORMATION

Disclosure. *See* Disclosure
FOIA requests. *See* Freedom of Information Act (FOIA)

ACCIDENTS

Explosions and fires. *See* Explosions and fires
Oil spills. *See* Oil spills
Railroads, Positive Train Control systems, FRA implementation rules, In Brief, 13
Releases of toxic or hazardous materials. *See* Releases and spills
Response. *See* Emergency planning and response

ACETALDEHYDE (75-07-0)

Air pollution, ambient concentrations regularly exceed EPA thresholds, study finds, 455

ACETIC ALDEHYDE *See* Acetaldehyde (75-07-0)

ACETONE (67-64-1)

Endocrine disruptor screening and testing program, EPA lists for initial study this year, 386

ACETYLENE TETRACHLORIDE *See* 1,1,2,2-Tetrachloroethane (79-34-5)

ACRALDEHYDE *See* Acrolein (107-02-8)

ACROLEIN (107-02-8)

Air pollution, ambient concentrations regularly exceed EPA thresholds, study finds, 455
Risk assessment, ATSDR asks researchers to volunteer data on various human exposure risks, 29

ACRYLALDEHYDE *See* Acrolein (107-02-8)

ACRYLIC ALDEHYDE *See* Acrolein (107-02-8)

ADVISORY COMMITTEES

Cal. Green Ribbon Sci. Panel, 382
Children's Health Protection Advisory Comm. seeks transparency on ChAMP and VCCEP, In Brief, 13
President's Council of Advisers on Sci. and Tech. (PCAST), Holdren, Lander, and Varmus to co-chair panel in Obama administration, 11; White House announces 20 members of panel, 439

AEROSPACE INDUSTRY

Beryllium, Stennis Space Center workers may not pursue personal injury claims for alleged exposure without showing compensable injury under state law (5th Cir.), 89
Halon-1301, EPA exempts imports used in aircraft fire suppression systems from petition process, 252

AGENT ORANGE (39277-47-9)

Government contractor defense, claims for damages against Dow dismissed (U.S., rev den), 221

AGRICULTURE

GM crops. *See generally* Biotechnology
Honeybees. *See* Fish and wildlife
Methyl bromide. *See* Methyl bromide (74-83-9)
Pesticides. *See* Pesticides

AGRICULTURE DEPARTMENT (USDA)

Ed. Note: This heading covers general

administrative issues and processes. For information on other USDA activities, see specific subject headings.

Bonnie appointed as senior adviser for environment and climate, 421
Wilkes nominated as undersecretary for natural resources and environment, In Brief, 475

AIR CONDITIONING

Automotive refrigerants, Cal. approves program to reduce GHG emissions, 113

AIR POLLUTION

Bayer CropScience agrees to pay more than \$1M to resolve violations of CWA, CAA, RCRA, and EPCRA at W. Va. plant, 223
BP N. Am. Texas City facility, firm agrees to \$180M settlement resolving alleged CAA violations (N.D. Ind.), 176
Calumet Shreveport agrees to pay fine to resolve charges of CAA violations following wastewater tank explosion and fire, 357
Climate change, Jackson pledges to using all tools available in CAA to reduce GHG emissions, 53; EPA publishes proposed rule finding GHG emissions endanger public health, 418
EU, Industrial Pollution Prevention and Control (IPPC) Directive, European Parliament committee votes in support of "safety net" of minimum performance standards, 110; European Parliament supports proposals, 264
Invista to pay fine and to spend more than \$500M to correct 680 environmental violations (D. Del.), 381
NESHAP. *See* National Emission Standards for Hazardous Air Pollutants (NESHAP)
NSPS. *See* New source performance standards (NSPS)
Perchloroethylene, EPA wants to review CAA rule limiting emissions from dry cleaning operations (D.C. Cir.), 353
PM. *See* Particulate matter
POPs, long-range transboundary air pollution treaty. *See* Aarhus Protocol on Persistent Organic Pollutants
Risk management plans
—Ammonia, fruit packaging firm pays fine to EPA to settle allegations of failing to establish plan for offsite releases, 135
—Enforcement policy, EPA lacks procedures to ensure all facilities have submitted plans to control chemical releases, IG says, 153; IG report claims majority of high-risk sites not audited in EPA Region 8, 328
Shell Oil agrees to settle CAA citizens' suit over "upset" emissions at Houston area plant (S.D. Tex.), 410
Simoniz USA agrees to pay fine and to perform 3 SEPs to settle charges of violating EPCRA and CAA at Conn. facility, 384
Sulfur dioxide, 3 sulfuric acid manufacturers to pay civil penalties and invest in pollution controls to lower emissions (N.D. Ohio), 45
Sulfuric acid, Du Pont and Lucite Intl. agree to pay civil penalties and to close Belle plant to resolve alleged CAA violations (S.D.W.Va.), 411
Toxic air contaminants. *See* Hazardous air pollutants (HAPs)
VOCs. *See* Volatile organic compounds (VOCs)

AIR TOXICS *See* Hazardous air pollutants (HAPs)

AIRCRAFT *See* Aerospace industry

ALBUTEROL (18559-94-9)

CFCs, EPA does not allocate essential use exemption under Montreal Protocol for metered-dose inhalers, 50

ALDICARB (116-06-3)

Endocrine disruptor screening and testing program, EPA removes from final list, 386

ALLETHRIN (584-79-2)

Endocrine disruptor screening and testing program, EPA removes from final list, 386

ALLOMALEIC ACID, DIMETHYL ESTER *See* Dimethyl fumarate (624-49-7)

ALLYL ALDEHYDE *See* Acrolein (107-02-8)

ALTERNATIVE FUELS

Biofuels. *See* Biofuels

ALUMINIUM *See* Aluminum (7429-90-5)

ALUMINUM (7429-90-5)

Superfund, ATSDR issues updated final toxicological profile, 132

AMERICAN INDIANS *See* Native Americans

2-(2-AMINOETHOXY)ETHANOL (929-06-6)

ChAMP, EPA lists HPV chemicals likely to be subject to test rules, 353

AMMONIA (7664-41-7)

Fruit packaging firm pays fine to EPA to settle allegations of failing to establish risk management plan for offsite releases, 135

AMMONIUM NITRATE (6484-52-2)

France, Total Oil to stand trial over 2001 fatal explosion at AZF fertilizer factory in Toulouse, 230

ANALYSIS AND PERSPECTIVE

Nanotechnology
—Practical guide to reduce product liability risk, 287
—SNURs, case for using TSCA for "existing" nanomaterials, 205
Perchlorate challenges Pres. Obama's pledge to give primacy to science at EPA, 444

ANDROGEN (57-85-2)

Endocrine disruptor screening and testing program. *See* Endocrine disruptors

ANIMAL TESTING

European Parliament supports plans to overhaul testing regime and to tighten restrictions, 473
Researchers sign international agreement to reduce animal use in product testing, 429

ANTHRACENE (120-12-7)

BP N. Am. Texas City refinery, firm agrees to pay fine to resolve alleged EPCRA violations, 250

ANTI-THYROID PESTICIDES *See* Endocrine disruptors

ANTIMONY TRIOXIDE (1309-64-4)

ECHA calls for comments on harmonizing classification and labeling of flame retardant, 201

APPAREL

Permethrin-treated military uniforms, test of mosquito repellency, In Brief, 14

AQUA FORTIS *See* Nitric acid (7697-37-2)

ARGENTINA

Matanza-Riachuelo River, ombudsman accuses state-run utility of dumping raw sewage into river, 231; ombudsman accuses government of failing to comply with cleanup orders, 305

ARSENIC (7440-38-2)

Ed. Note: This heading covers both arsenic and arsenic compounds.
Air pollution, ambient concentrations regularly exceed EPA thresholds, study finds, 455

ARSENIC (7440-38-2) —Contd.

Water pollution, Columbia River Basin, EPA Region 10 report provides first comprehensive gauge of risks, 88

ASBESTOS (1332-21-4)

Adeline Jay Geo-Karis III. Beach State Park, structural flaws and other factors prevent ATSDR from protecting public health effectively, Miller (D-NC) says, 247

Equitable Building renovation, firm must pay civil penalty for failing to abide by state regulations (Iowa Dist. Ct.), 462

EU lawmakers criticize European Comm'n plan to continue REACH exemptions for 6 fiber types, 360; European Parliament members support resolution to end waiver, 491

France to change exposure rules based on newly released data and recommendations, 198

Libby vermiculite mining Superfund site

—Bankruptcy, court grants preliminary approval to settlement of homeowner class action against W.R. Grace (Bankr. D. Del.), 116

—Criminal CAA case against W.R. Grace set for trial (D. Mont.), 115; prosecutors say actions by executives endangered Libby residents, 196; court allows expert witnesses to rely on indoor air studies and historical product testing, 197; W.R. Grace claims EPA negligence played role in endangering residents, 278; judge dismisses all charges against former executive, 433; jury finds firm and 3 former executives not guilty on all counts, 455

—FOIA, federal employees' suit alleges EPA improperly withheld IG report on cleanup effort (D.D.C.), 414; EPA releases IG report, 433

Liberty Mutual Insurance owes coverage for defense and indemnity costs from personal injury claims filed against former manufacturer (Wis.), 136

Occupational safety

—Boiler manufacturer employee verdict reversed due to trial court improperly barring jury from hearing about other workplace exposures (Ill.), 466

—Brake manufacturer may face supplier liability in negligence claim brought by widow of machine shop employee (Wis. App. Ct.), 492

—Joint compound, court rejects exposure award against manufacturer due to difficulty of apportioning liability (Cal. Ct. App.), 414

—Malignant mesothelioma death rates rise due to long latency period after first exposure, NIOSH says, 457

—Navy veterans with mesothelioma

—Estates awarded \$14M in exposure case (Pa. Ct. C.P.), 434

—Exposed former machinist's mate due \$2.9M, jury says (Cal. Super. Ct.), 515

—San Diego Gas & Elec., new criminal trial may proceed against firm for violating work practice standards (9th Cir.), 280

—Widow of mesothelioma victim did not put forth sufficient evidence of exposure during 4-month period of working on particular ship (N.D. Ohio), 359

Superfund, landlord seeks CERCLA liability for abandoned material left in place during sale of building (U.S., rev sought), 225

“Take home” or “bystander” exposure suits against property owners barred (Ohio Ct. App.), 178

Third-party product hazards, state law imposes no duty to warn of defective products manufactured or supplied by someone else (Cal. Ct. App.), 227

ASTHMA INHALERS

CFCs, EPA plans to allocate 63 metric tons for metered dose inhaler production in 2009 under Montreal Protocol, 50

ATK OS-10

SNAP program, EPA approves as acceptable alternative for total flooding fire suppression and explosion protection systems, 5

ATRAZINE (1912-24-9)

Endocrine disruptor screening and testing program, EPA lists for initial study this year, 386; EPA to send test orders to manufacturers and registrants soon, 430

ATSDR *See* Toxic Substances and Disease Registry Agency (ATSDR)

AUDITS

France, proposed REACH ordinance defines penalties for noncompliance and authorizes audits, 229

AUDITS, ENVIRONMENTAL *See* Environmental audits

AUSTRIA

Biotechnology, EU member states reject European Comm'n plan to force end to ban, 235

AUTOMOTIVE INDUSTRY

Cargo tank motor vehicle construction and maintenance. *See* Cargo tanks and cargo tank motor vehicles

Metalworking fluids, group of former GM plant workers may not pursue product liability and failure to warn claims against bulk chemical supplier (Mich. Ct. App.), 199

AZINPHOS-METHYL (86-50-0)

Endocrine disruptor screening and testing program, EPA removes from final list, 386

Superfund, ATSDR issues updated final toxicological profile, 132

B**BACTERIA** *See also specific bacteria*

Research and development, certain microorganisms can help fast-growing biofuel stock grow in polluted soil, DOE says, 119

BANKRUPTCY

Eagle Picher Carefree Battery Superfund site, bankrupt electronics manufacturer liable to EPA for over \$9M in past and estimated future cleanup costs (6th Cir.), 412

Libby vermiculite mining Superfund site, court grants preliminary approval to settlement of homeowner class action against W.R. Grace (Bankr. D. Del.), 116

BARIUM (7440-39-3)

BP N. Am. Texas City refinery, firm agrees to pay fine to resolve alleged EPCRA violations, 250

Risk assessment, ATSDR asks researchers to volunteer data on various human exposure risks, 29

TRI annual report for 2007 shows high releases, 275

BATTERIES

Eagle Picher Carefree Battery Superfund site, bankrupt electronics manufacturer liable to EPA for over \$9M in past and estimated future cleanup costs (6th Cir.), 412

Hazardous materials transportation, harmonization rule likely to have biggest impact on shipments of batteries, PHMSA, 56

Switzerland proposes changes to federal rules on marketing and sale of nickel-cadmium batteries, 49

BBP *See* Benzyl butyl phthalate (85-68-7)

BDE-209 *See* Decabromodiphenyl ether (1163-19-5)

BENSULFURON (99283-01-9)

European Comm'n authorizes use in pesticides marketed in EU, 200

BENZENE (71-43-2)

Air pollution

—Public health, ambient concentrations regularly exceed EPA thresholds, study finds, 455

—Shell Oil agrees to settle CAA citizens' suit over “upset” emissions at Houston area plant (S.D. Tex.), 410

Camp Lejeune drinking water contamination, ATSDR preparing to revise part of assessment, 431

Hazardous waste, jury verdict against San Antonio overturned due to lack of proof of link between municipal waste site and girl's leukemia (Tex.), 464

Right-to-know, BP N. Am. Texas City refinery, firm agrees to pay fine to resolve alleged EPCRA violations, 250

1,2-BENZENEDICARBOXYLIC ACID DIISODECYL ESTER *See* Diisodecyl phthalate (26761-40-0)

BENZOL *See* Benzene (71-43-2)

2H-3,1-BENZOXAZINE-2,4(1H)-DIONE (118-48-9)

ChAMP, EPA lists HPV chemicals likely to be subject to test rules, 353

BENZYL BUTYL PHTHALATE (85-68-7)

Ban of use in children's products, CPSC issues guidance regarding compliance with prohibitions, 156

Endocrine disruptor screening and testing program, EPA lists for initial study this year, 386

REACH, ECHA calls for public comments on decision to prioritize ban, 49

Test methods and procedures, CPSC seeking comments on tests used to analyze content of child care items and toys, 252

BENZYL-(C₁₂₋₁₆-)ALKYLDIMETHYL QUATERNARY AMMONIUM COMPOUNDS, CHLORIDES (68424-85-1)

ChAMP, EPA lists HPV chemicals likely to be subject to test rules, 353

BENZYLBI(SHYDROGENATED TALLOW ALKYL)DIMETHYL QUATERNARY AMMONIUM COMPOUNDS, CHLORIDES (61789-72-8)

ChAMP, EPA lists HPV chemicals likely to be subject to test rules, 353

BENZYLBI(SHYDROGENATED TALLOW ALKYL)METHYL QUATERNARY AMMONIUM COMPOUNDS, CHLORIDES (61789-73-9)

ChAMP, EPA lists HPV chemicals likely to be subject to test rules, 353

BERYLLIUM (7440-41-7)

Ed. Note: This heading covers both beryllium and beryllium compounds.

Stennis Space Center workers may not pursue personal injury claims for alleged exposure without showing compensable injury under state law (5th Cir.), 89

BEST MANAGEMENT PRACTICES (BMP)

Mercury, EPA signs agreement with dental group and water officials on establishing voluntary dental amalgam discharge reduction program, 29

β-BHC *See* 1α,2β,3α,4β,5α,6β-Hexachlorocyclohexane (319-85-7)

γ-BHC *See* Lindane (58-89-9)

BIETHYLENE *See* 1,3-Butadiene (106-99-0)

BIOENGINEERING *See generally* Biotechnology

BIOFUELS

Research and development, certain bacteria can help fast-growing biofuel stock grow in polluted soil, DOE says, 119

BIOMONITORING *See* Monitoring and measurement

BIOTECHNOLOGY

Brazil, destruction of GM soy planted near Emas Natl. Park, In Brief, 57

Climate change, gene controlling plant response to heat, In Brief, 367

Cost-benefit analysis, reports differ on benefits of expanding GM commercial crops worldwide, 179
European Union

—Bt-11 maize, Comm'n approves proposal calling for 10-year license, 93

—GMO 1507 maize, Comm'n approves proposal calling for 10-year license, 93

—Incidental GM material, seed producers and farmers call for threshold for trace amounts, 236

—MON 810 maize, Comm'n approves order calling on France and Greece to drop unilateral bans, 93; member states reject plan to force Austria and Hungary to end bans, 235

—Restricted zones, 5-nation conference defends concept of establishing areas where no GM crops may be cultivated, 235

France, MON 810 maize, food safety agency declares currently banned crop fit for human and animal consumption, 179

India

—Alleviating poverty may outweigh side effects of GM seeds, chief justice says, 495

—Biopesticides, government offers incentives to farmers, planners, and scientists to promote industry, 438

—Bt Brinjal, safety concerns delay decision on sales of GM eggplant, 180

Nematode-resistant potatoes, ARS testing new GM crop designed to resist certain types of roundworms, 437

Outlook 2009, Special Report, 70

Regulatory policy, USDA extends comment period on proposed GMO rule, 258

Research and development

—Bioengineered plants fail to boost yield of corn and soybeans, study finds, 389

—Biofuels, certain bacteria can help fast-growing stock grow in polluted soil, DOE says, 119

—Quality management system, APHIS launches pilot project to test voluntary program, 93

1,1-BIS(*p*-CHLOROPHENYL)-2,2,2-TRICHLOROETHANE *See* DDT (50-29-3)

BIS(2-ETHYLHEXYL)PHTHALATE *See* Di(2-ethylhexyl)phthalate (117-81-7)

BISPHENOL A *See* 4,4'-Isopropylidenediphenol (80-05-7)

BITUMEN (8052-42-4)

Switzerland proposes changes to federal rules on marketing and sale of chemical products, 49

BIVINYL *See* 1,3-Butadiene (106-99-0)

BMP *See* Best management practices (BMP)

BOLETIC ACID, DIMETHYL ESTER *See* Dimethyl fumarate (624-49-7)

BRAZIL

Biotechnology, destruction of GM soy planted near Emas Natl. Park, In Brief, 57

Hazardous waste, group sues several U.S. firms over alleged illegal disposal of toxic wastes (S.D. Ind.), 432

BRITAIN *See* United Kingdom (UK)

BROMINATED FLAME RETARDANTS
PBDEs. *See* Polybrominated diphenyl ethers (PBDEs)

BROMOCHLOROMETHANE (74-97-5)
ChAMP, EPA lists HPV chemicals likely to be subject to test rules, 353

BROMOMETHANE *See* Methyl bromide (74-83-9)

BROMOTRIFLUOROMETHANE (75-63-8)
International trade, EPA exempts imports of bottled Halon-1301 used in aircraft fire suppression systems from petition process, 252
SNAP program, EPA approves acceptable alternatives for fire suppression and explosion protection systems, 5

BROWNFIELDS

Reauthorization of federal programs high on list of legislative priorities issued by House Transp. and Infrastructure Comm., 97

BUDGET, U.S. *See also specific agencies and departments*

FY2010 appropriations, White House proposal assumes reinstated Superfund "polluter pays" tax, 236; Senate panel passes resolution, 310

BUILDING MATERIALS *See* Construction materials

1,3-BUTADIENE (106-99-0)

Air pollution

—Public health, ambient concentrations regularly exceed EPA thresholds, study finds, 455

—Shell Oil agrees to settle CAA citizens' suit over "upset" emissions at Houston area plant (S.D. Tex.), 410

2-BUTANONE *See* Methyl ethyl ketone (78-93-3)

BUTENEDIOIC ACID, ESTERS

ChAMP, EPA posts 10 high-priority chemicals targeted for data collection rules, 353

BUTYL BENZYL PHTHALATE *See* Benzyl butyl phthalate (85-68-7)

BUTYL-CARBITYL (6-PROPYLPIPERONYL) ETHER *See* Piperonyl butoxide (51-03-6)

N-[5-(*tert*-BUTYL)-1,3,4-THIAZOL-2-YL]-*N,N*-DIMETHYLUREA *See* Tebuthiuron (34014-18-1)

5-*tert*-BUTYL-2,4,6-TRINITRO-*m*-XYLENE
See Musk xylene (81-15-2)

N-(4-*tert*-BUTYLBENZYL)-4-CHLORO-3-ETHYL-1-METHYLPYRAZOLE-5-CARBOXAMIDE *See* Tebufenpyrad (119168-77-3)

C

CADMIUM (7440-43-9)

Ed. Note: This heading covers both cadmium and cadmium compounds.

Electrical equipment and electronic products, House actions. *See* Legislation, federal, HR 2420

Periodontal disease linked to exposure, In Brief, 123

CALIFORNIA

Appointments and personnel changes, Gorsen resigns as head of Cal-EPA Toxic Substances Control Dept', In Brief, 238

Asbestos

—Occupational safety

—Joint compound, court rejects exposure award against manufacturer due to difficulty of apportioning liability (Cal. Ct. App.), 414

—San Diego Gas & Elec., new criminal trial for violating work practice standards may proceed (9th Cir.), 280

—Product safety, state law imposes no duty to warn of defective products manufactured or supplied by third parties (Cal. Ct. App.), 227

Budget, FY2009-2010 appropriations, governor outlines new strategies to address anticipated deficit, 518

Carbon nanotubes, state regulators ask manufacturers and importers to provide toxicity and other data, 113

DBCP, 2 lawsuits against Dole Food by Nicaraguan banana plantation workers dismissed (Cal. Super. Ct.), 435

Green chemistry, state agency announces advisory panel to help develop rules to implement new program, 382

Ozone-depleting substances, state air quality officials approve program to reduce GHG emissions from automotive refrigerants, 113

Perchlorate in groundwater at Goodrich site in Rialto, EPA cannot rely on FOIA exemptions to withhold documents about vadose zone model used to assess contamination (D.D.C.), 90

Proposition 65

—Lead, environmental group to sue retailers for selling handbags and wallets that warrant consumer warnings, 356

—Mercury, canned tuna firms not required to warn consumers because mercury contamination naturally occurring (Cal. Ct. App.), 281

—Occupational safety, chemicals identified in worker safety standards as carcinogens and reproductive hazards must be listed without further scientific review (Cal. Super. Ct.), 457

CANADA

Animal testing, researchers sign international agreement to reduce animal use in product testing, 429

Enforcement policy, proposed measure to strengthen fines for dealing with polluters, wildlife smugglers, and poachers, 231

Environmental petitions process, updated guidance, In Brief, 98

Hazmat transport, proposed amendments on emergency response assistance plans, In Brief, 162

Mercury, environment agency publishes draft notice requiring dental facilities to implement pollution prevention plans to eliminate releases from amalgam wastes, 415

NAFTA issues. *See* North American Free Trade Agreement (NAFTA)

Nanotechnology

—Occupational safety, government to require companies to report use, quantities, and toxicity of nanomaterials, 91

—Risk management, 3 institutions publish guide to help companies manage health and safety risks of nanoparticles, 134

Pesticides, Ontario to implement ban on cosmetic uses soon, 234

PFOS, final regulations target stain repellent for virtual elimination from manufacture, import, or use, 155

Phosphorus, information sought on alternatives for soaps and detergents, In Brief, 443

Toxic substances

—Ontario legislature to consider measure to reduce use and release by manufacturing and industrial sectors, 358

—Product safety, environment and health agencies publish draft orders proposing to designate 13 substances as toxic, 511

CANCER *See specific types of cancer*
Proposition 65. *See* California

CAPTAN (133-06-2)

Endocrine disruptor screening and testing program, EPA lists for initial study this year, 386; EPA to send test orders to manufacturers and registrants soon, 430

CARBARYL (63-25-2)

Endangered species, continued use of certain products likely to jeopardize 27 populations of West Coast salmon and steelhead trout, NMF says, 417

CARBOFURAN (1563-66-2)

Endangered species, continued use of certain products likely to jeopardize 27 populations of West Coast salmon and steelhead trout, NMF says, 417
Residue tolerances, EPA to revoke rule allowing use on food crops, 493; Jackson to review decisionmaking, 516

CARBOLIC ACID *See* Phenol (108-95-2)

CARBON DIOXIDE (124-38-9)

Climate change, EPA proposed rule finds GHG emissions endangering public health and welfare, 377

CARBON MONOXIDE (630-08-0)

Air pollution, Du Pont and Lucite Intl. agree to pay civil penalties and to close Belle plant to resolve alleged CAA violations (S.D.W.Va.), 411

CARBON NANOMATERIALS *See* Nanotubes

CARBON TETRACHLORIDE (56-23-5)

Air pollution, ambient concentrations regularly exceed EPA thresholds, study finds, 455

CARCINOGENS

Proposition 65. *See* California

CARGO TANKS AND CARGO TANK MOTOR VEHICLES

Highway transport, PHMSA issues final rule to improve hazmat transport safety and reduce operating burdens on manufacturers, 366
Railroad tank cars, PHMSA interim final rule on toxic-by-inhalation materials allows upgrades while technology develops, 56

CARIBBEAN SEA

Shell Chem. Yabucoa agrees to pay penalty and invest in pollution control and monitoring improvements to settle CWA suit (D.C.P.R.), 48

CARS *See* Motor vehicles

CAUSTIC SODA *See* Sodium hydroxide (1310-73-2)

CBI *See* Confidential business information (CBI)

CEQ *See* White House Council on Environmental Quality (CEQ)

CERCLA *See* Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)

CERTIFICATES AND CERTIFICATION
Class actions. *See* Class actions

CFC-12 *See* Dichlorodifluoromethane (75-71-8)

CFC-22 *See* Chlorodifluoromethane (75-45-6)

CFCS *See* Chlorofluorocarbons (CFCs)

CHAMP (CHEMICAL ASSESSMENT AND MANAGEMENT PROGRAM) *See* Risk assessment

CHEMICAL ACCIDENTS *See* Emergency planning and response; Releases and spills

CHEMICAL ASSESSMENT AND MANAGEMENT PROGRAM (CHAMP) *See* Risk assessment

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD (CSB)

Outlook 2009, Special Report, 78

CHEMICALS AND CHEMICAL INDUSTRY

Animal use in testing products. *See* Animal testing
Bayer CropScience pesticide plant
—Methomyl residue treater tank explosion and fire. *See* Explosions and fires
—Penalties, firm agrees to pay more than \$1M to resolve violations of CWA, CAA, RCRA, and EPCRA at Institute plant, 223
Biomonitoring of environmental chemicals. *See* Monitoring and measurement
Crown Chem., former president sentenced for CWA violations involving dumping of chemical wastes into Chicago regional sewer system (N.D. Ill.), 135
Dow Chemicals, Midland plant dioxin contamination. *See* Dioxins
Du Pont
—Reserve facility explosion and chemical release, expert testimony failed to establish connection to injuries claimed in class action suit (La. Ct. App.), 117
—Teflon contamination of drinking water, class certification of 2 consolidated suits rejected (D.N.J.), 26
France, classified hazardous sites, lobby calls for suspension of new rules to help industry survive global economic downturn, 304; government to propose simplified registration procedure for lower-risk sites, 416
Green chemistry. *See* Green chemistry
International agreements
—ICCM2 to discuss chemicals in finished products and other chemicals management topics, 391; participants struggle with fundamental questions, Conference Report, 499
—PFCs, U.S. seeks voluntary national and global stewardship programs to reduce use, Conference Report, 501
—Sweden calls for establishment of UN panel of scientists to examine risks, Conference Report, 500
—UNEP chief calls for coordinated financing of management efforts, Conference Report, 499
Leasing, UNIDO annual report, In Brief, 204
Management, UNEP official praises industry for promoting good management programs, 525
PMNs. *See* Premanufacture notices (PMNs)
REACH. *See* Registration, Evaluation, and Authorization of Chemicals (REACH) system
Regulatory policy
—Congress turning to multiple statutes to manage chemicals instead of amending only TSCA, speakers tell conferences, 380
—Obama administration can quickly make and implement decisions, EPA official says, 363
SAICM. *See* Strategic Approach to International Chemicals Management (SAICM)
Security at plants and other facilities. *See* Homeland security
3M, PFCs in groundwater, ruling narrows damage claims by residents of Lake Elmo and Oakdale (Minn. Dist. Ct.), 90
CHILDREN'S HEALTH
Bisphenol A, 6 baby bottle manufacturers agree to ban chemical over health concerns, 251

Integrated pest management, USDA and EPA announce plan to improve school health nationwide, 32
Lead. *See generally* Lead (7439-92-1)
Pesticides, National Children's Study begins recruiting women for multiyear exposure study monitoring children from birth to age 21, 52
Phthalates. *See* Phthalate (53124-26-8)
TCE in Camp Lejeune drinking water, military family seeks discretionary function exception to sovereign immunity in personal injury suit (U.S., rev sought), 118
VCCEP. *See* Voluntary Children's Chemical Evaluation Program (VCCEP)

CHINA

REACH, more than 500 chemical manufacturers and exporters preregistered, program coordinator says, 384

CHLORDECONE *See* Kepone (143-50-0)

CHLORINE (7782-50-5)

Chlor-alkali plant ban. *See* Legislation, federal, HR 2065; Legislation, federal, HR 2065, HR 2190
Emergency planning and response, researchers urge hospitals to stockpile ventilators in case of accidents or terrorist attacks, 12

CITIZENS' SUITS

Air pollution, Shell Oil agrees to settle CAA suit over "upset" emissions at Houston area plant (S.D. Tex.), 410

Notice and notification, lack of advance notice of pollution-related class action cannot be cured (D.N.J.), 385

CIVIL RIGHTS *See* Environmental justice

CLASS ACTIONS

Citizens' suits, lack of advance notice of pollution-related suit cannot be cured (D.N.J.), 385

DBCP, Central American banana farm workers may split up lawsuits to avoid federal court jurisdiction (C.D. Cal.), 306

Dioxins, Dow Chem. Midland plant, oral arguments heard in suit brought by group of property owners and residents of Tittabawassee River basin (Mich. Sup. Ct.), 225

Drywall, homeowners and home builder file suit against firm that manufactured contaminated product in China (M.D. Fla.), 157

Du Pont Reserve facility explosion and chemical release, expert testimony failed to establish connection to injuries claimed in class action suit (La. Ct. App.), 117

Formaldehyde, class certification denied to plaintiffs alleging toxic exposure in FEMA trailers (E.D. La.), 9

Lead, drinking water agency hid multiyear spike in levels from public, class action suit claims (D.C. Super. Ct.), 200

Libby vermiculite mining Superfund site, court grants preliminary approval to settlement of homeowner class action against W.R. Grace (Bankr. D. Del.), 116

Teflon-related contamination of drinking water, class certification of 2 consolidated medical monitoring suits rejected (D.N.J.), 26

CLASSIFICATION

European Union

—Dangerous Substances Directive, European Comm'n modifies classification and labeling rules for more than 600 chemicals, 88

—Diantimony trioxide, ECHA calls for comments on harmonization plans, 201

—Epoconazole, ECHA calls for comments on harmonization plans, 201

GHS. *See* Globally Harmonized System of Classification and Labeling of Chemicals

CLEAN AIR ACT (CAA)

Ed. Note: This heading is limited to CAA reauthorization or reform. The heading AIR POLLUTION provides coverage of CAA administration and enforcement and cross-references to specific pollutants and industries regulated under CAA.

CLEAN WATER ACT (CWA)

Ed. Note: This heading is limited to CWA reauthorization or reform. The heading WATER POLLUTION provides coverage of CWA administration and enforcement and cross-references to specific pollutants and industries regulated under CWA.

Scope of statute, House Transp. and Infrastructure Comm. list of legislative priorities includes measure to delimit covered waters, 97

CLEANING AGENTS

Crown Chem., former president sentenced for CWA violations involving dumping of chemical wastes into Chicago regional sewer system (N.D. Ill.), 135

Disclosure of ingredients, coalition of environmental groups sue 4 manufacturers of household products for failure to submit semiannual reports to state (N.Y. Sup. Ct.), 177

CLIMATE CHANGE

Air pollution, Jackson pledges to using all tools available in CAA to reduce GHG emissions, 53; EPA publishes proposed rule finding GHG emissions endanger public health, 418

Automotive refrigerants, Cal. approves program to reduce GHG emissions, 113

Biotechnology, gene controlling plant response to heat, In Brief, 367

EU chemicals industry policy group calls for reductions in energy use and GHG emissions, 202

Motor vehicles, Pres. Obama announces changes in fuel economy standards and national limits on GHG emissions, 518

Public health, EPA proposed rule finds GHG emissions endangering public health and welfare, 377

Switzerland proposes changes to federal rules on marketing and sale of certain fluorinated GHGs, 49

Canada publishes draft order proposing designation as toxic, 511
Children's health
—Baby bottle manufacturers agree to ban chemical over health concerns, 251
—Chicago approves ordinance banning sale of baby bottles and cups containing hardener, 489
—Md. lawmakers vote to ban use in baby bottles and toddler cups, 331; measure fails to pass, 382

Food safety, ban from food and drink containers. *See* Legislation, federal, S 593
Pharmacokinetics, chemical remains in human body longer than expected, In Brief, 123

ITALY

Pesticides, beekeepers call for ban of neonicotinoids allegedly damaging hives, 93

J

JAPAN

Animal testing, researchers sign international agreement to reduce animal use in product testing, 429
Nanotechnology, environment ministry releases guidelines to reduce risk of environmental harm from nanomaterials, 255

JURISDICTION

PCBs, property contamination suit remanded due to improper joinder of plant manager (N.D. Fla.), 226

JUSTICE DEPARTMENT (DOJ)

Moreno to be named as assistant AG for environment and natural resources, 497

JUSTICE, ENVIRONMENTAL *See* Environmental justice

K

KDD6

SNAP program, EPA approves as acceptable alternative in refrigeration and air conditioning to HCFC-22, 5

KEPONE (143-50-0)

Stockholm Convention, parties to treaty endorse agreement to add to Annex A, 486

L

LABELS AND LABELING

European Union
—Dangerous Substances Directive, European Comm'n modifies classification and labeling rules for more than 600 chemicals, 88
—Diantimony trioxide, ECHA calls for comments on harmonization plans, 201
—Ecolabeling, European Parliament approves revision to voluntary certification scheme, 357
—Epoxiconazole, ECHA calls for comments on harmonization plans, 201
GHS. *See* Globally Harmonized System of Classification and Labeling of Chemicals

LANNATE *See* Methomyl (16752-77-5)

LEAD (7439-92-1)

Ed. Note: This heading covers both lead and lead compounds.
BP N. Am. Texas City refinery, firm agrees to pay fine to resolve alleged EPCRA violations, 250
Children's health
—Ban of use in products. *See* Legislation, federal, S 374, S 389
—Inaccessible lead interpretation, commenters respond to proposed CPSC rule, 228
—Testing labs, commenters discuss CPSC proposed accreditation requirements for testing lead content of certain products, 173
Consumer products, industry group requests immediate stay of effective date of lower content limits, 137; CPSC rejects request, 174
Drinking water, water agency hid multiyear spike in levels from public, class action suit claims (D.C. Super. Ct.), 200

Electrical equipment and electronic products
—Children's health, CPSC proposes 4 rules to address exemptions for some children's products from tougher limits, 109; CPSC replaces proposed rule with interim final rule allowing immediate effective date, 173
—House actions. *See* Legislation, federal, HR 2420
Housing, EPA and HUD allege violations of disclosure law by The Community Builders, 330
Metales y Derivados abandoned plant, U.S. and Mexico complete first cleanup of Tijuana lead smelter site under Border 2012 program, 160
Proposition 65, environmental group to sue retailers for selling handbags and wallets that warrant consumer warnings, 356
South Korea ban on solder in children's jewelry, In Brief, 204
Switzerland proposes changes to federal rules on marketing and sale of chemical products, 49
TRI annual report for 2007 shows increasing releases, 275

LEAD PAINT

State public nuisance claim against 10 manufacturers withdrawn (Ohio Ct. C.P.), In Brief, 162

LEAKS *See* Releases and spills

LEGISLATION, FEDERAL

Ed. Note: This heading covers bills with assigned numbers only. For information on measures not yet assigned numbers, see specific subject headings.

HR

—**34**, Midnight Rule Act, Nadler (D-NY) intends to restrict adoption of rules issued near end of final terms of presidents, 143
—**554**, National Nanotechnology Initiative Amendments, Gordon (D-Tenn) introduces bill to reauthorize research efforts, 96; House approves bill, 153
—**562**, Superfund Reinvestment Act, Blumenauer (D-Ore) proposes refunding bill, 131
—**776**, Toxic Right-to-Know Protection Act, Jackson willing to restore tough standards if bill does not pass, 222
—**820**, Nanotechnology Advancement and New Opportunities (NANO) Act, Honda (D-Cal) introduces bill to promote development and responsible stewardship of nanotechnology, 154
—**832**, Superfund Polluter Pays Act, Pallone (D-NJ) proposes refunding bill, 131
—**1013**, Hazardous Materials Cooperative Research Act to authorize \$20M over 4 years to fund research into hazmat transport, 182
—**1580**, Electronic Waste Research and Development Act, Science Comm. approves bill unanimously, 302; House passes bill, 409
—**2065**, Mercury Pollution Reduction Act, bill to phase out use of mercury in chlorine production introduced by Schakowsky (D-III), 407
—**2190**, Mercury Pollution Reduction Act, Schakowsky (D-III) introduces another bill to prevent exports of mercury from closed chlor-alkali plants, 457; industry says bill could imperil jobs and could have unjustifiable impact, 488
—**2420**, Environmental Design of Electrical Equipment Act, bill to establish uniform federal standards on use of certain toxic substances, 512
S
—**374**, CPSIA reform, DeMint (R-SC) introduces bill to help small businesses, 156
—**389**, Lead ban delay, Bennett (R-Utah) introduces bill to delay CPSIA ban on lead in children's products, 156
—**519**, POPs, LRTAP POPs, and PIC Implementation Act, bill to amend FIFRA to permit U.S. ratification of 3 treaties, 233

LEGISLATION, FEDERAL —Contd.

§—Contd.

—593, Ban Poisonous Additives Act, Feinstein (D-Cal) to ban bisphenol A from food and drink containers, 277

LEUKEMIA

Herbicides, no evidence links tree trimmer's death to exposure to Dow products (4th Cir.), 389
Resin-coated sand, chronic myeloid leukemia, 2-year limitation for wrongful death action trumps time requirement for product liability claims (Ind.), 10

LINDANE (58-89-9)

Stockholm Convention, parties to treaty endorse agreement to add to Annex A, 486

LIQUEFIED NATURAL GAS *See* LNG (64741-48-6)

LITIGATION

Ed. Note: For lower court cases, see specific subject headings. For Supreme Court actions, see SUPREME COURT, U.S.

Outlook 2009, Special Report, 74

LNG (64741-48-6)

Hazmat transport, Coast Guard proposes harmonizing rules with FERC regulations, 443

LOCOMOTIVES *See* Railroads

LONG RANGE TRANSBOUNDARY AIR POLLUTION (LRTAP) CONVENTION

POPs treaty. *See* Aarhus Protocol on Persistent Organic Pollutants

LOUISIANA

Explosions and fires

—Calumet Shreveport agrees to pay fine to resolve charges of CAA violations following wastewater tank incident, 357

—Du Pont Reserve facility incident, expert testimony failed to establish connection to injuries claimed in class action suit (La. Ct. App.), 117

Formaldehyde, class certification denied to plaintiffs alleging toxic exposure in FEMA trailers (E.D. La.), 9

Global Env'tl. Methods, EPA and state regulators order shutdown of New Iberia facility for permit violations, 159

Hazardous waste, Marine Shale site, state regulators agree to oversee study and possible further cleanup at former oil field waste processing plant, 383

LUBRICANTS

Calumet Shreveport agrees to pay fine to resolve charges of CAA violations following wastewater tank explosion and fire, 357

M

MAFRON-12 *See* Dichlorodifluoromethane (75-71-8)

MALATHION (121-75-5)

Endocrine disruptor screening and testing program, EPA lists for initial study this year, 386; EPA to send test orders to manufacturers and registrants soon, 430

MANAGEMENT AND BUDGET OFFICE (OMB)

Regulatory review, Pres. Obama revokes Bush administration executive order granting oversight of new rules and guidance documents, 142
Sunstein to be nominated as head of OIRA, 34; Pres. Obama announces nomination, 419; Senate committee announces conformation hearing date, 474; Senate panel approves nomination, 520

MANGANESE (7439-96-5)

Ed. Note: This heading covers both manganese and manganese compounds.

TRI annual report for 2007 shows high releases, 275

MARSH GAS *See* Methane (74-82-8)

MARYLAND

Bisphenol A, lawmakers vote to ban use in baby bottles and toddler cups, 331; state measure fails to pass, 382

Climate change, governor signs measure requiring steep reductions in GHG emissions, 474

Coal combustion byproducts, governor signs measure concerning permissible beneficial uses, 520

Deca-BDE, state measure to ban certain products fails, 382

Mercury, governor signs measure requiring automakers to submit minimization plans, 520

Permit challenge measure, governor signs legislation, 520

Testing, governor signs measure specifying reimbursement conditions for environmental health monitoring, 520

Water pollution, governor signs measure increasing maximum penalty for violations of state laws and other measures, 474

MATTING ACID *See* Sulfuric acid (7664-93-9)

MEASUREMENT *See* Monitoring and measurement

MEDICAL MONITORING

Nanoparticle exposure registry for workers should be part of effort to determine risk and liability, expert says, 194

Pesticides, National Children's Study begins recruiting women for multiyear exposure study monitoring children from birth to age 21, 52

Teflon contamination of drinking water, class certification of 2 consolidated suits rejected (D.N.J.), 26

MEK *See* Methyl ethyl ketone (78-93-3)

MERCAPTODIMETHUR (2032-65-7)

Endocrine disruptor screening and testing program, EPA removes from final list, 386

MERCURY (7439-97-6)

Ed. Note: This heading covers both mercury and mercury compounds.

Air pollution, Jackson criticizes EPA regulatory scheme, 53

Canada publishes draft notice requiring dental facilities to implement pollution prevention plans to eliminate releases from amalgam wastes, 415

Chlor-alkali plant ban. *See* Legislation, federal, HR 2065, HR 2190

Electrical equipment and electronic products, House actions. *See* Legislation, federal, HR 2420

Fish and wildlife, Tex. largemouth bass health advisory, In Brief, 123

High-fructose corn syrup could contain heavy metal from processing intermediates, study claims, 108

International agreements, more than 140 countries pledge to move ahead on legally binding treaty to control emissions and discharges, 169; agreement sets stage for establishment of intergovernmental negotiating committee, 195; Obama administration reverses position on supporting voluntary restrictions, 363; UNEP official says negotiations likely to be difficult without nonbinding provisions, 524

Proposition 65, canned tuna firms not required to warn consumers because contamination naturally occurring (Cal. Ct. App.), 281

Storage, DOE seeking facilities capable of storing and managing elemental mercury, 329

Sweden confirms ban on use in most products with certain exemptions, 92

Switzerland proposes changes to federal rules on marketing and sale of chemical products, 49

TRI annual report for 2007 shows increasing releases, 275

Water pollution

—Columbia River Basin, EPA Region 10 report provides first comprehensive gauge of risks, 88

—Dental amalgam discharges, EPA signs agreement with dental group and water officials on establishing voluntary reduction program, 29

MESOTHELIOMA *See generally* Asbestos (1332-21-4)

METALS INDUSTRY

Consolidated Iron and Metal Superfund site, 18 companies and municipalities to pay EPA for cleanup costs at Newburgh site (S.D.N.Y.), 160

METALWORKING FLUIDS

Sophisticated user defense, group of former GM plant workers may not pursue product liability and failure to warn claims against bulk chemical supplier (Mich. Ct. App.), 199

METHACIDE *See* Toluene (108-88-3)

METHAMIDOPHOS (10265-92-6)

Peas contaminated with pesticide residues, produce firm and owner plead guilty to alleged scheme to smuggle peas from Guatemala (S.D. Fla.), 32; sentencing, In Brief, 367

METHANAL *See* Formaldehyde (50-00-0)

METHANE (74-82-8)

Climate change, EPA proposed rule finds GHG emissions endangering public health and welfare, 377

METHANE DICHLORIDE *See* Methylene chloride (75-09-2)

METHANE TETRACHLORIDE *See* Carbon tetrachloride (56-23-5)

METHIOCARB *See* Mercaptodimethur (2032-65-7)

METHOMYL (16752-77-5)

Bayer CropScience pesticide plant explosion and fire, CSB postpones public hearing on investigation of fatal incident, 223; Coast Guard and CSB agree on details of public hearing presentation, 382; investigators say safety lapses led to thermal runaway reaction, 405; CSB asks Congress to consider measure to prevent firms from classifying federal safety compliance documents and routine records as secret, 406; W.Va. regulators say tank lacked proper hazardous waste permit, 432
Endangered species, continued use of certain products likely to jeopardize 27 populations of West Coast salmon and steelhead trout, NMF says, 417

2-METHOXY-5-NITROPHENOL, SODIUM

SALT *See* Sodium 5-nitroguaiacolate (67233-85-6)

2-METHOXY-1-PROPANOL (1589-47-5)

Canada, environment and health agencies publish draft order proposing designation as toxic, 511

2-METHOXYETHANOL ACETATE *See* Methyl cellosolve acetate (110-49-6)

2-(2-METHOXYETHOXY)ETHANOL *See*

Diethylene glycol monomethyl ether (111-77-3)

METHYL ALDEHYDE *See* Formaldehyde (50-00-0)

METHYL AZINPHOS *See* Azinphos-methyl (86-50-0)

METHYL BROMIDE (74-83-9)

Critical use exemptions, EPA to authorize production of 2.3M kilograms for agricultural use in 2009, 435; EPA begins accepting applications for 2012 and beyond, 517

2-METHYL-1,3-BUTADIENE *See* Isoprene (78-79-5)

METHYL CARBITOL *See* Diethylene glycol monomethyl ether (111-77-3)

METHYL CELLOSOLVE ACETATE (110-49-6)

Canada, environment and health agencies publish draft order proposing designation as toxic, 511

METHYL ETHYL KETONE (78-93-3)

Endocrine disruptor screening and testing program, EPA lists for initial study this year, 386

METHYL HYDRIDE *See* Methane (74-82-8)

METHYL ISOBUTYL KETONE *See* Isobutyl methyl ketone (108-10-1)

METHYL ISOCYANATE (624-83-9)

Bayer CropScience pesticide plant explosion and fire, CSB postpones public hearing on investigation of fatal incident, 223; Coast Guard and CSB agree on details of public hearing presentation, 382; investigators say safety lapses led to thermal runaway reaction, 405; CSB asks Congress to consider measure to prevent firms from classifying federal safety compliance documents and routine records as secret, 406; W.Va. regulators say tank lacked proper hazardous waste permit, 432; Senate and House committee chairmen ask CSB to investigate use of chemical at plant, 456

2-METHYL-2-(METHYLTHIO)PROPANAL O-[(METHYLAMINO)CARBONYL]OXIME *See* Aldicarb (116-06-3)

N-METHYL-1-NAPHTHYLCARBAMIC ACID *See* Carbaryl (63-25-2)

4-METHYL-2-PENTANONE *See* Isobutyl methyl ketone (108-10-1)

METHYLBENZENE *See* Toluene (108-88-3)

METHYLENE CHLORIDE (75-09-2)

EU bans use in paint strippers but allows certain professional uses, 89

METHYLENE OXIDE *See* Formaldehyde (50-00-0)

4,4'-METHYLENEBISANILINE *See* 4,4'-Methylenedianiline (101-77-9)

4,4'-METHYLENEDIANILINE (101-77-9)

REACH, ECHA calls for public comments on decision to prioritize ban, 49

METHYLMERCURY (22967-92-6)

Proposition 65, canned tuna firms not required to warn consumers because contamination naturally occurring (Cal. Ct. App.), 281

3-METHYLPENTYN-3-OL (77-75-8)

ChAMP, EPA lists chemicals targeted for data collection rules, 353

METHYLPHENOL *See* Cresol (1319-77-3)

MEXICO

NAFTA issues. *See* North American Free Trade Agreement (NAFTA)

Toxic substances, government working to launch chemical inventory by 2012, NACEC official tells conference, 384

MIBK *See* Isobutyl methyl ketone (108-10-1)

MICHIGAN

Dioxins, Dow Chem. plant, Midland. *See* Dioxins
Metalworking fluids, group of former GM plant workers may not pursue product liability and failure to warn claims against bulk chemical supplier (Mich. Ct. App.), 199

Phosphorus, household detergent limits, In Brief, 37

MIK *See* Isobutyl methyl ketone (108-10-1)

MILITARY CONFLICTS

Vietnam War, use of Agent Orange. *See* Agent Orange (39277-47-9)

MILITARY FACILITIES

Camp Lejeune drinking water contamination
—Public health, ATSDR preparing to revise part of assessment, 431
—TCE, military family seeks discretionary function exception to sovereign immunity in personal injury suit (U.S., rev sought), 118

MINES AND MINING

Libby vermiculite mining Superfund site. *See* Asbestos (1332-21-4)

Uranium, proposed mine on Navajo Nation land requires EPA permit (10th Cir.), 411

MINNESOTA

PFCS in groundwater, ruling narrows damage claims against 3M by residents of Lake Elmo and Oakdale (Minn. Dist. Ct.), 90
PFOS and PFOS, personal injury claims stripped from damage suit against 3M over hazardous waste disposal (Minn. Dist. Ct.), 9

MINORITIES *See* Environmental justice

MIRBANE, OIL OF *See* Nitrobenzene (98-95-3)

MISREPRESENTATION *See* Fraud and misrepresentation

MISSISSIPPI

Beryllium, Stennis Space Center workers may not pursue personal injury claims for alleged exposure without showing compensable injury under state law (5th Cir.), 89

MISSOURI

Haloacetic acids, state cites Cameron for violations of state drinking water rules, 280
Pesticides, HPI Prods. owner pleads guilty to illegally discharging manufacturing waste into St. Louis sewer system in violation of CWA (W.D. Mo.), 140

MODELING

Perchlorate in groundwater at Goodrich site in Rialto, EPA cannot rely on FOIA exemptions to withhold documents about vadose zone model used to assess contamination (D.D.C.), 90

MONITORING AND MEASUREMENT

Caribbean Sea, Shell Chem. Yabucoa agrees to pay penalty and invest in pollution control and monitoring improvements to settle CWA suit (D.C.P.R.), 48
Drinking water, EPA plans survey and analysis to improve knowledge of 200 emerging contaminants, 377

EU seed producers and farmers call for threshold for trace amounts of incidental GM material, 236
Medical surveillance and monitoring. *See* Medical monitoring
Nanotechnology, OECD report analyzes lack of standards for measuring techniques for workplace exposure, 408

MONTANA

Libby vermiculite mining Superfund site. *See* Asbestos (1332-21-4)

MONTREAL PROTOCOL

CFCs, EPA plans to allocate 63 metric tons for metered dose inhaler production in 2009, 50
HFCs, U.S. decides not to offer amendment to phase out use, 459
Methyl bromide, critical use exemptions. *See* Methyl bromide (74-83-9)

MONUMENTS *See* National parks and monuments

MOSQUITO CONTROL

Permethrin-treated military uniforms, test of mosquito repellency, In Brief, 14

MOTOR CARRIERS

Cargo tank motor vehicles. *See* Cargo tanks and cargo tank motor vehicles
Security guidebook, In Brief, 37

MOTOR VEHICLES

Automotive refrigerants, Cal. approves program to reduce GHG emissions, 113
Lead in children's products, manufacturers of youth ATVs and offroad motorcycles express concern about CPSC proposed rule, 228

MURIATIC ACID *See* Hydrogen chloride (7647-01-0)

MUSK XYLENE (81-15-2)

REACH, ECHA calls for public comments on decision to prioritize ban, 49

N

NAFTA *See* North American Free Trade Agreement (NAFTA)

NANOCRYSTALLINE FLUORESCENT SEMICONDUCTOR MATERIALS

Risk assessment
—Biodistribution, translocation to kidneys and lymph nodes from lungs, In Brief, 311
—High doses of some types of quantum dots obstruct veins and cause death in some mice, study finds, 8

NANOTECHNOLOGY

Biopharmaceutical firms seeking FDA guidance before investing in products with nanoscale materials, 192
Biosensor detects nanoparticles of certain heavy metals, In Brief, 311
Canada
—Occupational safety, government to require companies to report use, quantities, and toxicity of nanomaterials, 91
—Risk management, 3 institutions publish guide to help companies manage health and safety risks of nanoparticles, 134
European Union
—Cosmetics Directive, agreement on changes introduces procedure to regulate use of nanomaterials in beauty products, 300
—REACH, European Parliament votes to review regulations governing nanomaterials, 431
Exposure to engineered nanomaterials, NNCO workshop, In Brief, 98

NANOTECHNOLOGY —Contd.

France plans to require registration of manufactured, imported, and marketed nanoparticles and products containing them, 111

Japan releases guidelines to reduce risk of environmental harm from nanomaterials, 255

Medical products, FDA collaborative initiative with Alliance for NanoHealth, In Brief, 265

Nanoscale Materials Stewardship Program, EPA to consider application of regulatory authority due to limited participation in voluntary program, 46

Nanotubes. *See* Nanotubes

Occupational safety

—Epidemiological studies, NIOSH paper identifies challenges in development, 254

—Liability, companies making or using nanomaterials should prepare for potential lawsuits, attorney says, 134; makers and users should prepare for safety inspections and tort claims, 193

—Monitoring and measurement, OECD report analyzes lack of standards for measuring techniques for workplace exposure, 408

—Nanoparticle exposure registry should be part of effort to determine risk and liability, expert says, 194

—Risk management, NIOSH updates guidance document on safe practices, 330

Product liability, practical guide to reduce risk, Analysis and Perspective, 287

REACH

—ECHA review of rules on nanomaterials, In Brief, 14

—Expert panel to debate handling nanomaterials under regulatory regime, 109

Research and development

—Economic stimulus package funds available for risk assessment research, NIEHS says, 390

—National Nanotechnology Initiative

—Funding. *See* Legislation, federal, HR 554

—National Research Council report, federal agencies point to “factual errors” and other concerns with document, 181

Responsible stewardship. *See* Legislation, federal, HR 820

Risk assessment

—Carbon nanotubes, Cal. regulators ask manufacturers and importers to provide toxicity and other data, 113

—Data collection, EPA to decide soon on regulatory authority to compel submission of information, 355; attorneys say chemical manufacturers need to pay attention to EPA initiatives, 403

—Quantum dots, high doses of some types of dots obstruct veins and cause death in some mice, study finds, 8

Shareholder resolutions, certain interest groups more likely to urge disclosure of nanomaterials and product safety policies, 47

Silver nanoparticles, EPA extends comment period on petition to regulate as pesticide under FIFRA, 51

SNURs, case for using TSCA for “existing” nanomaterials, Analysis and Perspective, 205

Titanium dioxide nanoparticles do not penetrate skin but harm bacteria, studies find, 299

United Kingdom

—Occupational medicine report examines nanoparticles that may have asbestos-like effects, 111

—Risk management, safety regulator unveils guidelines for carbon nanotubes, 255

—SAFE-NANO initiative, review of global research efforts finds major data gaps hindering risk assessments, 379

NANOTUBES

PMNs, EPA to begin enforcing review requirement for carbon nanotubes, 169

Risk assessment

—Cal. regulators ask manufacturers and importers of carbon nanotubes to provide toxicity and other data, 113

—NIOSH researchers demonstrate that multi-walled carbon nanotubes can penetrate lining of lungs, 299
United Kingdom

—Occupational medicine report examines carbon nanotubes that may have asbestos-like effects, 111

—Risk management, safety regulator unveils guidelines for carbon nanotubes, 255

1-NAPHTHYL N-METHYLCARBAMATE *See* Carbaryl (63-25-2)

NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS (NESHAP)

Aerosol coatings, EPA withdraws final rule providing 6-month extension for compliance with VOCs emissions standards, 8

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES (NIEHS)

Birnbaum as director, toxicologists view Birnbaum's role as opportunity to promote basic research, Special Report, 476

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA)

Lubchenco nominated to head agency in Obama administration, 11

NATIONAL PARKS AND MONUMENTS

Brazil, destruction of GM soy planted near Emas Natl. Park, In Brief, 57

NATIONAL POLLUTANT DISCHARGE

ELIMINATION SYSTEM (NPDES) *See* Water pollution

NATIONAL TOXICOLOGY PROGRAM (NTP)

See also specific substances

Classification, program to use 5 categories to summarize conclusions from studies, 309

NATIVE AMERICANS

Uranium, proposed mine on Navajo Nation land requires EPA underground injection permit (10th Cir.), 411

NATURAL DISASTERS

Hurricanes Katrina and Rita aftermath, class certification denied to plaintiffs alleging toxic exposure to formaldehyde in FEMA trailers (E.D. La.), 9

NATURAL GAS

Ed. Note: For extraction activities and processes, see OIL AND GAS.

Pipelines. *See generally* Pipelines

NAVIGABLE WATERS

Oil spills, exemptions to federal spill prevention rules, EPA extends effective date to review final SPCC rule, 133

NEONICOTINOID PESTICIDES

Italy, beekeepers call for ban of pesticides allegedly damaging hives, 93

NESHAP *See* National Emission Standards for Hazardous Air Pollutants (NESHAP)

NEW JERSEY

Citizens' suits, lack of advance notice of pollution-related class action cannot be cured (D.N.J.), 385
Diamond Alkali Superfund site, final EPA cleanup plan calls for mechanical dredging of sediment, 51
Hexavalent chromium, PPG Indus. settles civil suit over contamination at 14 sites in 3 towns (N.J. Super. Ct.), 198

Pesticides, Ag-Mart Produce fined for alleged violations of state rules at 17 tomato farms, 139

Teflon contamination of drinking water, class certification of 2 consolidated medical monitoring suits rejected (D.N.J.), 26

Witnesses and testimony, deposition of former EPA administrator Whitman barred (D.N.J.), In Brief, 162

NEW MEXICO

Eagle Picher Carefree Battery Superfund site, bankrupt electronics manufacturer liable to EPA for over \$9M in past and estimated future cleanup costs (6th Cir.), 412

Uranium, proposed mine on Navajo Nation land requires EPA underground injection permit (10th Cir.), 411

NEW SOURCE PERFORMANCE STANDARDS (NSPS)

Nitric acid production plants, 2 environmental groups sue EPA to force review (D.D.C.), 131

NEW YORK

Consolidated Iron and Metal Superfund site, 18 companies and municipalities to pay EPA for cleanup costs at Newburgh site (S.D.N.Y.), 160
Hudson River Superfund site PCB removal project. *See* PCBs (1336-36-3)

Pesticides, state lawmakers approve measure to phase out state use of most products, 470

Vapor intrusion inspection results, In Brief, 265

Water pollution, former superintendent of Binghamton drinking water filtration plant charged with knowing dumping into Susquehanna River (N.Y. Cnty. Ct.), 282

NICARAGUA

DBCP, 2 lawsuits against Dole Food by banana plantation workers dismissed (Cal. Super. Ct.), 435

NICKEL (7440-02-0)

Ed. Note: This heading covers both nickel and nickel compounds.

BP N. Am. Texas City refinery, firm agrees to pay fine to resolve alleged EPCRA violations, 250

NIEHS *See* National Institute of Environmental Health Sciences (NIEHS)

NITRATE (14797-55-8)

Ed. Note: This heading covers both nitrate and nitrate compounds.

TRI annual report for 2007 shows high releases, 275

NITRIC ACID (7697-37-2)

NSPS for production plants, 2 environmental groups sue EPA to force review (D.D.C.), 131

NITROBENZENE (98-95-3)

Risk assessment, EPA issues final toxicological review with final risk values lower than proposed in draft document, 170

NITROGEN OXIDES (11104-93-1)

Air pollution, Du Pont and Lucite Intl. agree to pay civil penalties and to close Belle plant to resolve alleged CAA violations (S.D.W.Va.), 411

NSPS, 2 environmental groups sue EPA to force review of nitric acid production plants (D.D.C.), 131

5-NITROGUAICOL, SODIUM SALT *See* Sodium 5-nitroguaiacolate (67233-85-6)

NUISANCES

Lead paint. *See* Lead paint

O

OCCUPATIONAL SAFETY AND HEALTH

Asbestos. *See* Asbestos (1332-21-4)
Bayer CropScience pesticide plant explosion and fire, OSHA issues proposed penalties, 223; Coast Guard and CSB agree on details of public hearing presentation, 382; investigators say safety lapses led to thermal runaway reaction, 405
Beryllium, Stennis Space Center workers may not pursue personal injury claims for alleged exposure without showing compensable injury under state law (5th Cir.), 89
Bladder cancer, dismissal of ship captain's personal injury suit finds no support for medical expert's assertion of link between workplace exposure and disease (5th Cir.), 463
Canada to require companies to report use, quantities, and toxicity of nanomaterials, 91
Carbon nanotubes, NIOSH researchers demonstrate that multi-walled carbon nanotubes can penetrate lining of lungs, 299

DBCP, 2 lawsuits against Dole Food by Nicaraguan banana plantation workers dismissed (Cal. Super. Ct.), 435

Herbicides, no evidence links tree trimmer's death to exposure to Dow products (4th Cir.), 389

Metalworking fluids, group of former GM plant workers may not pursue product liability and failure to warn claims against bulk chemical supplier (Mich. Ct. App.), 199

Nanotechnology. *See* Nanotechnology

UK report examines nanoparticles that may have asbestos-like effects, 111

OCTAMETHYLCYCLOTETRASILOXANE (556-67-2)

Canada, environment and health agencies publish draft order proposing designation as toxic, 511

N-OCTYLBI-CYCLOHEPTENE DICARBOXIMIDE (7786-80-3)

Fatal home treatment incident, Or. pest control firm to pay fine to resolve 7 alleged violations of FIFRA, 437

OHIO

Asbestos, widow of mesothelioma victim did not put forth sufficient evidence of exposure during 4-month period of working on particular ship (N.D. Ohio), 359

C-8 in drinking water, Du Pont Washington Works facility, EPA lowers action level for bottled water in Parkersburg area supplies, 249

Lead paint, state public nuisance claim against 10 manufacturers withdrawn (Ohio Ct. C.P.), In Brief, 162

SO₂, 3 sulfuric acid manufacturers to pay civil penalties and invest in pollution controls to lower emissions (N.D. Ohio), 45

OIL AND GAS

France, Total Oil to stand trial over 2001 fatal explosion at AZF fertilizer factory in Toulouse, 230

Hazardous waste, Marine Shale site, La. regulators agree to oversee study and possible further cleanup at former oil field waste processing plant, 383

Oil spills. *See* Oil spills

Shell Chem. Yabucoa agrees to pay penalty and invest in pollution control and monitoring improvements to settle CWA suit (D.C.P.R.), 48

Shell Oil agrees to settle CAA citizens' suit over "upset" emissions at Houston area plant (S.D. Tex.), 410

Waste oil. *See* Used oil

OIL OF MIRBANE *See* Nitrobenzene (98-95-3)

OIL OF VITRIOL *See* Sulfuric acid (7664-93-9)

OIL SPILLS

Exemptions to federal spill prevention rules, EPA extends effective date to review final SPCC rule, 133; EPA delaying effective date for amendments, 329

Explorer Pipeline agrees to pay CWA penalty for rupture that contaminated Turkey Creek and surrounding areas with jet fuel (S.D. Tex.), 35

Leak-detection devices for oil-carrying single-hull vessels, Coast Guard cancels rule requiring installation, 36

OMB *See* Management and Budget Office (OMB)

OREGON

Conquer and Uld-bp-100, pest control firm to pay fine to resolve 7 alleged violations of FIFRA in fatal home treatment incident, 437

Pesticides, state reporting program in jeopardy due to lack of funding, 92

Water pollution, state lists priority persistent pollutants with documented adverse effects on human health, wildlife, and aquatic life, 282

ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT (OECD)

Nanotechnology

—Global database on nanomaterial safety research launch, In Brief, 345

—Occupational safety, OECD report analyzes lack of standards for measuring techniques for workplace exposure, 408

Penta-BDE, report recommends member states study exposure, absorption, and safety data, 159

Test methods and procedures

—Chemical testing guideline list update, In Brief, 345

—Environmental fate, EPA harmonizes updated guidelines for pesticides and industrial chemicals, 378

ORGANOTIN COMPOUNDS

Public health, agricultural pesticides attack proteasome in humans, researchers find, 233

OSTP *See* White House Office of Science and Technology Policy (OSTP)

OXYBENZENE *See* Phenol (108-95-2)

OXYGEN (7782-44-7)

Shell Chem. Yabucoa agrees to pay penalty and invest in pollution control and monitoring improvements to settle CWA suit (D.C.P.R.), 48

OZONE (10028-15-6)

Stratospheric layer protection. *See* Montreal Protocol

OZONE-DEPLETING SUBSTANCES

Aerosol coatings NESHAP, EPA withdraws final rule providing 6-month extension for compliance with VOCs emissions standards, 8

Asthma inhaler propellants. *See* Asthma inhalers
Automotive refrigerants, Cal. approves program to reduce GHG emissions, 113

Halon-1301, EPA exempts imports used in aircraft fire suppression systems from petition process, 252

International agreements. *See* Montreal Protocol

Methyl bromide. *See* Methyl bromide (74-83-9)

SNAP program, EPA approves 8 alternatives for use in refrigeration, fire suppression systems, and foam blowing, 5

P

PACKAGING

Dishwashing and laundry detergents, Wal-Mart to reduce use in international markets, 115

PAINTS AND COATINGS

Aerosol coatings NESHAP, EPA withdraws final rule providing 6-month extension for compliance with VOCs emissions standards, 8; EPA proposes expanded list of VOCs, 327

European Comm'n bans use of dichloromethane in paint strippers but allows certain professional uses, 89

PARTICULATE MATTER

Sulfuric acid, Du Pont and Lucite Intl. agree to pay civil penalties and to close Belle plant to resolve alleged CAA violations (S.D.W.Va.), 411

PBBS (67774-32-7)

Electrical equipment and electronic products, House actions. *See* Legislation, federal, HR 2420

PBDES *See* Polybrominated diphenyl ethers (PBDEs)

PCBS (1336-36-3)

Environmental justice, property contamination suit remanded due to improper joinder of plant manager (N.D. Fla.), 226

France stresses elimination of contaminated equipment as regulatory priority, 416

Gary Sanitary Dist. lagoon, EPA issues final decision on cleanup of Ind. site, 383

Hudson River Superfund site removal project
—Dredging project begins after many years of delays, 513

—GE to pay for constructing water lines for 3 towns impacted by dredging (N.D.N.Y.), 119

—Municipalities seek to halt project until alternative source of water provided (N.D.N.Y.), 227

Ships and shipping, Global Shipping and Global Marketing Sys. to pay TSCA penalties for towing contaminated cruise ship out of U.S. waters for recycling, 136

TRI annual report for 2007 shows increasing releases, 275

Water pollution, Columbia River Basin, EPA Region 10 report provides first comprehensive gauge of risks, 88

PCE *See* Perchloroethylene (127-18-4)

PCTS *See* Polychlorinated terphenyls

PENALTIES

Canada, proposed measure to strengthen fines for dealing with polluters, wildlife smugglers, and poachers, 229

France, proposed REACH ordinance defines penalties for noncompliance and authorizes audits, 229

Rail transportation, FRA increases civil fines for violations of national safety rules, 12

PENNSYLVANIA

Asbestos, Navy veterans with mesothelioma awarded \$14M in exposure case (Pa. Ct. C.P.), 434

Century Cabinetry agrees to pay state civil penalties for air quality violations at kitchen cabinet manufacturing plant, 281

PENTA-BDE *See* Pentabromodiphenyl ether (32534-81-9)

PENTABROMODIPHENYL ETHER (32534-81-9)

Risk assessment, OECD recommends member states study exposure, absorption, and safety data, 159

Stockholm Convention, parties to treaty endorse agreement to add to Annex A, 486

PENTACHLOROBENZENE (608-93-5)

Stockholm Convention, parties to treaty endorse agreement to add to Annex A, 486

PERC *See* Perchloroethylene (127-18-4)

PERCHLORATE (14797-73-0)

Drinking water contamination. *See* Perchlorate in drinking water

Groundwater at Goodrich site in Rialto, EPA cannot rely on FOIA exemptions to withhold documents about vadose zone model used to assess contamination (D.D.C.), 90

Research, reaction to study challenges Pres. Obama's pledge to give primacy to science at EPA, Analysis and Perspective, 444

PERCHLORATE IN DRINKING WATER

Regulatory policy

—DOD offers EPA new information on contamination sources, 485

—EPA IG cost-benefit analysis supports agency decision not to impose stringent limits, 27

—Jackson agrees to address issue, 53

Risk assessment, EPA consulting with Natl. Acad. of Scis. before making final determination on national regulation, 28

PERCHLOROETHYLENE (127-18-4)

Air pollution, EPA wants to review CAA rule limiting emissions from dry cleaning operations (D.C. Cir.), 353

Camp Lejeune drinking water contamination, ATSDR preparing to revise part of assessment, 431

PERFLUOROCARBONS

Climate change, EPA proposed rule finds GHG emissions endangering public health and welfare, 377

Groundwater contamination, ruling narrows damage claims against 3M by residents of Lake Elmo and Oakdale (Minn. Dist. Ct.), 90

International agreements, U.S. seeks voluntary national and global stewardship programs to reduce use, Conference Report, 501

PERFLUOROETHYLENE, HOMOPOLYMER (9002-84-0)

Drinking water contamination, class certification of 2 consolidated medical monitoring suits rejected (D.N.J.), 26

Toxic torts, consumers drop suits against Du Pont regarding product liability, 514

PERFLUOROCTANE SULFONATE

Canada, final regulations target stain repellent for virtual elimination from manufacture, import, or use, 155

Drinking water contamination, EPA issues provisional health advisory on estimated safe levels for short-term exposure, 87

Groundwater, personal injury claims stripped from damage suit against 3M over hazardous waste disposal (Minn. Dist. Ct.), 9

Reproductive hazards, impact of exposure on fertility in women, In Brief, 122

Stockholm Convention

—Annex B, parties to treaty agree to add to list, 486

—China and India lead opposition to proposed restrictions, 467

Switzerland proposes changes to federal rules on marketing and sale of chemical products, 49

PERFLUOROCTANOIC ACID (335-67-1)

Drinking water contamination

—Citizens' suits, lack of advance notice of pollution-related suit cannot be cured (D.N.J.), 385

—Class certification of 2 consolidated medical monitoring suits rejected (D.N.J.), 26

—Du Pont Washington Works facility, EPA lowers action level for bottled water in Parkersburg area supplies, 249; interest group calls on EPA to apply stricter standards, 301

—Health advisory, EPA issues provisional advisory on estimated safe levels for short-term exposure, 87

—Monitoring, EPA plans survey and analysis, 377

Groundwater contamination, personal injury claims stripped from damage suit against 3M over hazardous waste disposal (Minn. Dist. Ct.), 9

Public health, birth defects and preeclampsia may be linked to elevated blood levels in W. Va. residents, science panel reports, 325

Reproductive hazards, impact of exposure on fertility in women, In Brief, 122

PERMETHRIN (52645-53-1)

Carcinogenicity, NIH study results, In Brief, 344

Military uniforms, test of mosquito repellency, In Brief, 14

PERSISTENT ORGANIC POLLUTANTS (POPS)

Bans. *See* Stockholm Convention

Long-range transboundary air pollution. *See* Aarhus Protocol on Persistent Organic Pollutants

PESTICIDE REGISTRATION *See also specific pesticides*

European Comm'n authorizes use of 5 active substances used in products marketed in EU, 200

Reregistration, EPA plans to complete 1,275 actions to help meet deadline for completion, 494

PESTICIDES *See also specific pesticides*

Canada, Ontario to implement ban on cosmetic uses soon, 234

Children's health, National Children's Study begins recruiting women for multiyear exposure study monitoring children from birth to age 21, 52

Dental equipment maker fine for FIFRA violations, In Brief, 144

Endocrine disruptor screening and testing program, EPA lists 67 chemicals for initial study this year, 386

European Union

—Active substances, Comm'n publishes online database following 16-year review process, 282

—Harmonized statistics, lawmakers to amend proposals requiring collection of sale and use data, 362

—Product safety, lawmakers reach agreement on tighter restrictions on authorization and use, 10

Fatal home treatment incident, Or. pest control firm to pay fine to resolve 7 alleged violations of FIFRA, 437

Integrated pest management, USDA and EPA announce plan to improve school health nationwide, 32

Invista to pay fine and to spend more than \$500M to correct 680 environmental violations (D. Del.), 381

Italy, beekeepers call for ban of neonicotinoids allegedly damaging hives, 93; beekeepers call on government to follow through on ban, 140

Leukemia, no evidence links tree trimmer's death to exposure to Dow products (4th Cir.), 389

Occupational safety and health, fines against Puerto Rican farm operation upheld (1st Cir.), 257

Oust herbicide, trial scheduled to begin in grower suit against BLM and Du Pont alleging crop damage from improper application (D. Idaho), 436

Outlook 2009, Special Report, 63

Phase out, N.Y. lawmakers approve measure to eliminate use by state in 3 phases, 470

Recordkeeping and reporting, Ore. program in jeopardy due to lack of funding, 92

Registration. *See* Pesticide registration

Residues in food. *See generally* Food safety

Silver nanoparticles, EPA extends comment period on petition to regulate under FIFRA, 51

Test methods and procedures, EPA harmonizes environmental fate guidelines with OECD requirements, 378

Treated wood products, NMFS seeking public comment on draft guidelines for aquatic environments, In Brief, 57

Water pollution

—Columbia River Basin, EPA Region 10 report provides first comprehensive gauge of risks, 88

—Endangered species, continued use of certain products likely to jeopardize 27 populations of West Coast salmon and steelhead trout, NMF says, 417

—HPI Prods. owner pleads guilty to illegally discharging manufacturing waste into St. Louis sewer system in violation of CWA (W.D. Mo.), 140

—NPDES, EPA rule exempting certain applications from federal requirements vacated (6th Cir.), 31;

EPA to seek 2-year stay of ruling, 361; Senators ask EPA to seek rehearing, 362; farm, forest, and pesticide groups seek review of ruling, 388

RADIONUCLIDES

Water pollution, Columbia River Basin, EPA Region 10 report provides first comprehensive gauge of risks, 88

RAILROADS

Anti-preemption amendment to Federal Railroad Safety Act (U.S., rev den), 522
Civil penalties, FRA increases fines for violations of national safety rules, 12
Positive Train Control systems, FRA implementation rules, In Brief, 13
SAFETEA-LU, reauthorization hearing raises funding and high-risk rail route issues, 498
Solid waste transfer stations, STB interim rule clarifies regulatory authority over garbage sites near rail lines, 121; interest groups seek clarity on land use exemption permits, 202
Sulfuric acid, Norfolk S. R.R. leak, class certification denial upheld (6th Cir.), 143
Toxic by inhalation materials
—PHMSA interim final rule on tank cars allows upgrades while technology develops, 56
—Risk management, safety rules aim to allow more say for state and local governments through route analysis, 442
—Union Pac. R.R. request to be allowed to refuse to transport some materials comes under fire from other shippers, 392

REACH SYSTEM *See* Registration, Evaluation, and Authorization of Chemicals (REACH) system

RECORDKEEPING AND REPORTING

Canada to require companies to report use, quantities, and toxicity of nanomaterials, 91
Pesticides, Ore. program in jeopardy due to lack of funding, 92
TRI. *See generally* Toxics Release Inventory (TRI)
TSCA Inventory Update Rule, EPA underestimating amount of work required, chemical makers say, 107; EPA to propose revisions to rule to improve accuracy of documents submitted by manufacturers and increase processing efficiency, 354

RECYCLING

Electronic waste, federal efforts should focus on reuse and recycling and reducing toxicity of components, witnesses tell House hearing, 158
PCBs, Global Shipping and Global Marketing Sys. to pay TSCA penalties for towing contaminated cruise ship out of U.S. waters for recycling, 136

REFINERIES

BP N. Am. Texas City facility
—Air pollution, firm agrees to \$180M settlement resolving alleged CAA violations (N.D. Ind.), 176
—Explosion and fire, judge accepts plea agreement including \$50M criminal fine (S.D. Tex.), 250
—Right-to-know, firm agrees to pay fine to resolve alleged EPCRA violations, 250
Calumet Shreveport agrees to pay fine to resolve charges of CAA violations following wastewater tank explosion and fire, 357

REFRIGERANTS

Automotive refrigerants, Cal. approves program to reduce GHG emissions, 113

REFUSE *See* Solid waste

REGISTRATION

France plans to require registration of manufactured, imported, and marketed nanoparticles and products containing them, 111

Occupational safety, nanoparticle exposure registry should be part of effort to determine risk and liability, expert says, 194
Pesticides. *See* Pesticide registration

REGISTRATION, EVALUATION, AND AUTHORIZATION OF CHEMICALS (REACH) SYSTEM

Asbestos, EU lawmakers criticize European Comm'n plan to continue exemptions for 6 fiber types, 360; Parliament members support resolution to end waiver, 491
China, more than 500 chemical manufacturers and exporters preregistered, program coordinator says, 384
Compliance
—Letters, exporters of chemicals should provide proof of preregistration, Only Representative Org. member says, 224
—Preregistration, industry actions topic of green chemistry meeting, 489
Enforcement, ECHA to coordinate programs with member states, 472
France, proposed ordinance defines penalties for noncompliance and authorizes audits, 229
Ireland to inspect industrial facilities to ensure compliance, 358
Nanomaterials
—ECHA review of regulations, In Brief, 14
—European Parliament votes to review regulations governing nanomaterials, 431
—Expert panel to debate handling nanomaterials under regulatory regime, 109
Outlook 2009, Special Report, 61
Polymers, rules require registration of reacted monomers, ECJ says, 278
Preregistered chemicals list, update to improve searchability, In Brief, 312
Substance Information Exchange Forums (SEIFs)
—Cefic timing chart, In Brief, 265
—ECHA publishes advisory notice on responsibilities of participating firms, 172
—Industry group advice on formation, In Brief, 98
Substances of very high concern, ECHA calls for public comments on decision to prioritize 7 chemicals for banning, 49
Switzerland proposes changes to federal rules on marketing and sale of chemical products to harmonize with EU rules, 49
Test data waivers, publication of criteria, In Brief, 183

REGULATORY POLICY

E-rulemaking website, OMB to examine possible improvements, 238
Midnight regulations
—EPA withdraws pending rules from OMB for review by Obama administration, 120
—House measure. *See* Legislation, federal, HR 34
—Public policy groups suggest strategies for Obama administration to reverse Bush administration actions, 95
Obama administration off to fast start in changing number of key environmental policies, Special Report, 313
OMB review process revisions, public comment period extended, 286; interest groups disagree on changes to OMB involvement in regulatory review, 363; business groups seek stronger OMB role in new process, 365
Open government directive, White House seeking public comment, 520
