

BNA Global Auditor™

Everything you need to conduct audits and site assessments on an international scale.

The next generation in EHS global auditing, offering automatically updated compliance information for over 100 jurisdictions worldwide.

For more information, call 800.372.1033 or visit www.bna.com/ga

BNA Auditor Goes Global!

Virtually every multinational company needs to audit its foreign operations for compliance with each country's EHS requirements.

BNA Global Auditor™ helps you quickly learn a country's EHS compliance obligations, how these obligations are implemented and enforced, which authorities to interact with, and which statutes apply to your operations. We make it easy to identify areas that are out of compliance, and weigh the level of compliance with the level of risk.

With *BNA Global Auditor* you can:

- Benefit from dual-language checklists in English and native languages. (*Coming Soon*)
- Use our guide notes to understand a requirement or answer a question.
- Customize your audit by selecting just those topics that apply to your facility.
- Generate audit and compliance scoresheets.
- Assess a facility's compliance with all applicable regulations.
- Rely on the detailed instructions, auditor guide notes, field-tested checklists, and accurate quarterly updates.
- Link directly to the text of any relevant citation.
- Save, share, and export your EHS audit checklists.
- Streamline your international operations as you save time and money.
- Get access to two complimentary hours of consulting from ENHESA.

For more information or to start your complimentary trial, visit www.bna.com/ga or call your BNA Account Executive or BNA Customer Relations at 800.372.1033

Your time-saving solution for maintaining effective international compliance.

A sophisticated, yet surprisingly simple approach to auditing.

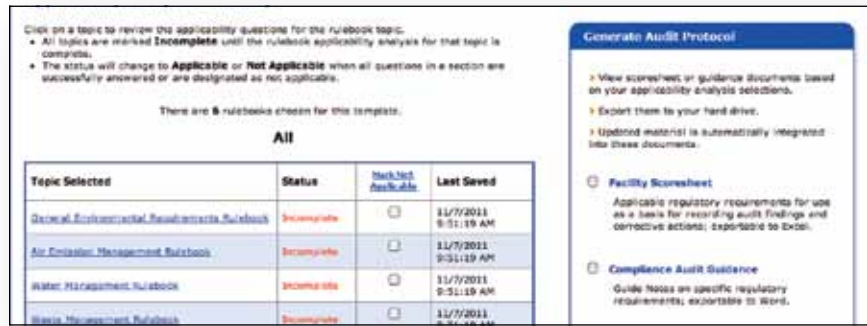

1. Start an Applicability Analysis by choosing a jurisdiction and topic.

This is the first step to creating a custom audit checklist, targeted to your operations.

2. Conduct Rulebook-level Applicability.

Tailor your prescreening to the actual situations at the site and its processes, operations, and equipment. *BNA Global Auditor* allows for ongoing honing of the audit protocol as conditions and findings change.

3. Proceed to Section Applicability.

Get quick, concise answers to important questions about your operations.

***BNA Global Auditor* is an ideal solution for:**

Multinational companies with corporate self-assessment/compliance management programs

Help your company's international sites meet their internal self-assessment mandates on an ongoing basis.

Sites doing their own compliance analyses

Use *BNA Global Auditor* as part of the ISO EMS process to identify all "legal aspects," especially at larger, more complex industrial sites.

Internal audit groups

BNA Global Auditor saves you money — compare with the cost of updating audit checklists yourself.

Independent professional auditors/consultants

Compete with industry leaders — you have access to the knowledge and field-tested materials of an international network of EHS auditors.

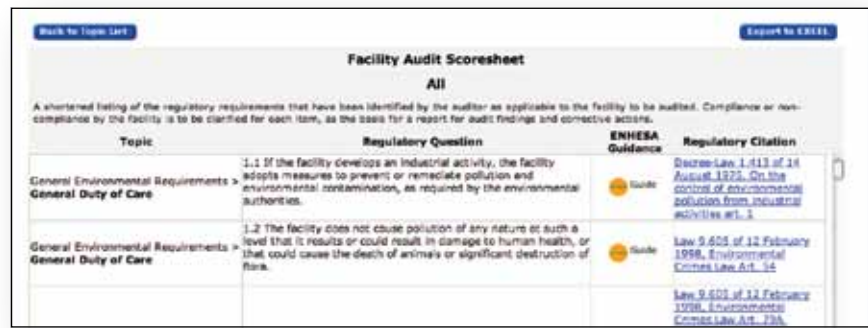

4. Continuously determine applicability.

Read guidenotes for audit strategy and tips.

5. Create reports and scoresheets.

Easily export your results to Excel for inclusion in documents and presentations.

6. Manage change.

Check for updates since you last saved your audit.

Components

Pre-Audit/Pre-Assessment Preparation

- List of all documents, reports, and files to be gathered for review prior to on-site audit or inspection

Compliance Rulebooks (Audit Protocols)

- Detailed summaries of regulatory requirements
- Guide notes:
 - How to determine applicability
 - Specific compliance elements to look for

Practices, conditions, or situations that could indicate potential problems

Score Sheets

- Allows quick recording of the facility's compliance status with each regulatory requirement

Quarterly Updates

- Flagged changes for topics in saved templates

Customize Your Audit

according to the specific properties of your company.

Our product allows you the flexibility to select just those topics that apply to your facility, or add corporate standards or site-specific requirements to fully flesh out your checklist.

Control the Level of Detail

you apply to your compliance audit checklist.

BNA Global Auditor is concise and streamlined, yet still allows you the option of drilling down for more technical language and data when the complexities of a situation demand it.

Trust the Expertise

of two industry leaders to help you minimize risks and perform due diligence.

Joining forces to bring you this exciting advance in EHS auditing are BNA, the leading independent publisher of print and electronic news, analysis, and reference products like the *Environment & Safety Library*[™]; and ENHESA, a recognized leader in international audit consulting and regulatory compliance assurance support, who develop a range of products and services tailor-made to help businesses ensure ongoing compliance.
