

Accounting Policy & Practice Series

Expert guidance that helps accounting policy makers and practitioners keep ahead of ongoing and emerging issues, and assists them in analyzing pronouncements and other actions by standard setters.

Bloomberg BNA Portfolios offer in-depth analysis and practical guidance from expert practitioners, and the *Accounting Policy & Practice Report* provides the latest news and developments affecting your organization.

Format & Frequency

Available online. Print Portfolios available.

Benefits

- Understand exactly what the rules mean and how you can apply them using detailed and practical guidance, illustrative examples, and sample journal entries.
- Navigate your way through every ruling and every issue — no matter how critical or complex — our straightforward language makes it easy.
- Evaluate multiple options and author perspectives on a comprehensive range of topics to make informed accounting policy decisions.
- Develop practical strategies using expert insights and perspectives, options, and ramifications.

Expert Analysis

More than 75 Portfolios provide practical analysis for developing and implementing complex tax strategies. Portfolios are organized as follows:
