Stay ahead of relevant business and legal developments to help inform your legal decisions with the new Business Intelligence Center on Bloomberg Law.

Bloomberg Law delivers a powerful suite of tools that draws on Bloomberg’s renowned news and financial data integrated with legal resources to help you uncover critical and timely information to better advise your organization.

From staying up to date on industry and competitive trends to advising on business strategy, Bloomberg Law helps you gain a leading edge by knowing the market and understanding the landscape.
Tap into the power of the Business Intelligence Center.

Use one of our expertly crafted Business Intelligence Center templates or create any number of custom dashboards to:

- Track more than 75,000 news sources by topic, from rumored mergers to bankruptcies to investigations, in order to get ahead of emerging developments that could impact your organization.
- Stay ahead of market, regulatory, and legal developments with real-time social media and docket alerts.
- Choose from more than 3.5 million downloadable company profiles, each of which provides a single point of access for an entity’s available financial statements, shareholder information and filings, management profiles, credit ratings, capital structure data, SEC filings, and more.
- Add your own messages, action items or other notes directly to each dashboard, and then share your dashboards with team members so that you can easily collaborate within your organization.
- Access the most up-to-date information with dashboards that are automatically refreshed.

The business landscape becomes more competitive every day. Are you ready? We can help.
