A subscription to Bloomberg BNA’s *Tax and Accounting Center*™ opens the door to a future of confidence and expertise as your students learn from leading practitioners from major corporations, law firms, and accounting firms.

Your students will have access to a robust source of tax analysis, news, expert commentary, and primary source materials, including:

- **Accounting Policy & Practice Series**
  Over 70 highly focused Portfolios and *Accounting Policy & Practice Report* provide an in-depth look at ongoing and emerging accounting issues. This series assists students in analyzing pronouncements and other actions by major accounting and auditing standard setters, while giving them hands-on knowledge of the inner workings of accounting policy.

- **Daily Tax Report**
  Bloomberg BNA’s award-winning source for continually updated tax reporting.

- **Fast Answers: Federal Tax**
  More than 3,000 of the most common questions asked by tax practitioners are answered clearly and concisely for times when students need quick answers to complete their assignments.

- **Tax Practice Series**
  More than 275 chapters provide students with an easy way to focus on the essence of a tax topic without having to read through volumes of material.

- **U.S. Income Portfolios Library**
  The gold standard in federal tax analysis and guidance with detailed, real-world examples to help students understand and learn how to resolve complex tax issues. Links to primary source documents, including cases, allow students to see how laws and regulations have been applied in practice.

- **Estates, Gifts and Trusts Portfolios Library**
  In-depth analysis and “how-to” information on more than 100 estate planning topics, commentary on emerging estate tax trends, and information on best practices in the field provide an excellent resource for those considering an estate tax career.

- **Foreign Income Portfolios Library**
  For those aspiring to enter the complex world of international business, Bloomberg BNA’s *Foreign Income Portfolios Library* provides the most comprehensive and in-depth tax analysis on every major cross-border transaction, as well as analysis of regulatory systems in numerous countries, and the ever-expanding area of transfer pricing.

- **Comprehensive State Tax Coverage**
  Along with Bloomberg BNA’s State Tax Portfolios and Sales & Use Tax Portfolios, your subscription provides a series of chart-building tools that allow students to assess state tax nexus potential in multiple states, as well as create detailed charts enabling users to research corporate and individual income tax in one centralized location.

By subscribing to the *Tax and Accounting Center*, your students will have access to the same information that CPAs and attorneys rely on. They will follow the same news and research that their future peers, employers, and co-workers use, and will be better prepared for the working world.
